

Monday's results and the blackout

Results for Monday have been retrieved as much as possible.

All results for the first five rounds and two results for Round 6 that had been entered to the Bridgemates before the blackout are all secure.

The Bridgemates have a 'Resend' command button under 'Info' which enabled me to capture all the results on Table 8 for rounds 5-7 after which the event was abandoned. These scores are included in the Results now posted to the web-site.

Unfortunately, I was unable to 'Resend' scores for rounds 5-7 from Tables 1-7. This is because the extra results stored in the Bridgemates are wiped as soon as a new session is commenced – and the Duplicate Novice session started at 9:30 am this morning. Today's session had 7 tables, so the Table 8 BM still has yesterday's results for retrieval.

The 'Resend' function is very easy to operate. The moral is to utilize this before a new session is commenced. If I had known, I could have got to the Club before 9:30 and we would have had scores for all 7 rounds played. Next time.

I will check with Roger whether Masterpoints can still be awarded.
